

ACTION AGENDA UPDATE PARTNER WORKSHOP

PROTECT AND RESTORE TERRESTRIAL AND FRESHWATER ECOSYSTEMS

Tuesday, September 13, 2011
Rhodes Center – Tacoma, WA

Objectives

- *Information sharing about work on revising strategies and sub-strategies for the 2011 Action Agenda update*
 - *Review in detail each of the pressure reduction/priority strategies and sub-strategies, and briefly review each of the non-pressure reduction strategies and sub-strategies*
 - *Gather feedback on ideas for changes or improvements to existing strategies and sub-strategies*
-

- 9:30-9:40** **Opening and Introductions (10 minutes)**
- 9:40-9:50** **Context for Today's Discussions (10 minutes) (Martha Neuman/Elizabeth McManus)**
- Role of these September Workshops
 - Strategy/Sub-strategy work to date: who, how, what
- 9:50-10:25** **Overview of All Strategies/Sub-Strategies (35 minutes) (Martha Neuman/Elizabeth McManus)**
- Full suite of strategies/sub-strategies planned for the Action Agenda
 - Today's focus
 - Questions/answers
- 10:25-10:55** **Review and Discussion of Land Development Strategies/ Sub-Strategies (30 minutes) (Judith Leckrone-Lee)**
- Focus land development away from ecologically important and sensitive areas
- 10:55-11:05** **Break (10 minutes)**
- 11:05-12:05** **Review and Discussion of Land Development Strategies/ Sub-Strategies, Cont. (60 minutes) (Judith Leckrone-Lee)**
- Protect and steward ecologically sensitive rural lands
 - Encourage compact regional growth patterns and create dense and attractive communities
- 12:05-12:50** **Lunch Break (45 minutes)**

Lunch will be provided in the room at a cost to participants; participants are asked to bring cash or check to cover the cost. Lunch will be \$10/person.

Action Agenda Update Partner Workshop #1, September 13, 2011

Protect and Restore Terrestrial and Freshwater Ecosystems

- 12:50-1:40** **Review and Discussion of Floodplain Strategies/ Sub-Strategies (50 minutes) (Dave St. John)**
- Protect and restore floodplain function
- 1:40-2:25** **Review and Discussion of Other Terrestrial and Freshwater Strategies (45 minutes)**
- Implementation and maintenance of key restoration projects for upland and freshwater ecosystems (John Cambalik)
 - Instream flow protection and enhancement (TBD)
 - Groundwater protection and management (TBD)
- 2:25-2:35** **Break (10 minutes)**
- 2:35-3:35** **Review and Discussion of Other Terrestrial and Freshwater Strategies, Cont. (60 minutes)**
- Protect and recover salmon(Rebecca Ponzio)
 - Implementation of other plans in a coordinated way and maintenance and enhancement of biodiversity (John Cambalik)
 - Invasive species prevention and response (Kevin Anderson)
 - Strategies and actions to flow from the Biennial Science Work Plan effort (Ken Currans)
- 3:35-4:20** **Review Package of Strategies/Sub-Strategies, Fill Gaps, Come Back to Any Nagging Issues (45 minutes)**
- Taken as a whole, do these strategies and sub-strategies work together?
 - Review parking lot of strategy and sub-strategy ideas; anything to add?
 - Other observations on the day
- 4:20-4:25** **Other Engagement Opportunities (5 minutes)**
- 4:25-4:30** **Wrap-up and Next Steps (5 minutes)**
- 4:30** **Adjourn**
