

Connect with the Puget Sound Partnership

Background

The Puget Sound Partnership is a community effort of citizens, governments, tribes, scientists and businesses working together to restore and protect Puget Sound. Despite its size, Puget Sound is ecologically delicate; and while its symptoms of trouble are not easily visible, they are undeniable and getting worse. The charge given to the Puget Sound Partnership by Governor Gregoire and the Legislature was to create a real Action Agenda that turns things around and leads to a healthy Puget Sound by 2020.
